# Benchmarking Performance

Given the expense and effort required to consistently produce high-quality social content, it's critical that brands understand what truly resonates with their audiences to maximize ROI and achieve lasting success. While metrics like follower count and growth rate remain important, brands are looking to measures such as engagement, owned reach, and posting cadence to gain a deeper understanding of how content is received. Learn why the following KPIs are critical to brands' social strategy.

### Methodology

For the 2H 2024 Social Media Benchmark Reports, Dash Social pulled a sample of global companies across TikTok (n=1,150), Instagram (n=2,956), and YouTube (n=631), analyzing their activity between January 1, 2024 – June 30, 2024, to determine average performance against a predetermined set of KPIs. These benchmarks include handles with a minimum of 1K followers, from both customers and non-customers. The results have been published in separate reports broken down into the following industries: beauty, fashion, luxury, media and publishing, CPG, food and beverage, retail, home, baby and children, wellness, B2B and sports.

## **Defining the Beauty Industry**

The beauty industry encompasses cosmetics, skincare, haircare, fragrance and services targeting aesthetic-driven consumers.

# **KPIs**

#### Average Monthly Growth Rate

The average number of followers added on a monthly basis.

Why It Matters: It helps brands understand the rate at which the industry is growing and how they meas

### Cross-Channel Engagement Rate

The Cross-Channel Engagement Rate is a metric that was created to compare each platform's shortoffering equally.

TikTok and Instagram: (Likes + Comments + Shares) / Reach. YouTube: (Likes + Comments + Shares) / Video Views\*.

\*As Reach is not an available metric for YouTube, Video Views was used.

Why It Matters: It helps brands understand the rate at which the industry is growing and how they mean

### Average Reach (TikTok and Instagram)

The average number of unique accounts that see your post.

*Why It Matters*: It helps brands understand the number of unique people its message reaches. This is in because it provides insight into brand awareness.

### Average Entertainment Score (TikTok and Instagram Reels)

The Entertainment Score is a proprietary Dash Social metric and is scored against a global database o benchmarks.

Why It Matters: It helps brands understand how entertained its audience is by a TikTok or Reel.

#### Average Engagement Rate (TikTok and Instagram)

The average Engagement each post receives.

TikTok Engagement Rate = (Likes + Comments + Shares) / Video Views. Instagram Engagement Rate = (Likes + Comments) / Followers.

\*This TikTok calculation differs from what is used in Dash Social's platform. Video Views is used instead of Reach in order to incl are not customers.

Why It Matters: It helps brands understand the rate at which the industry is growing and how they meas

	Average Effectiveness Rate
	A Dash Social metric that includes video views as a way to understand video performance.
asure up.	Effectiveness Rate = Likes + Comments + Saves + Video Views / Est. Reach.
	<b>Why It Matters</b> : It helps brands understand how posts were received by those who saw it, rather than the brand's total Followers.
-form video	
	Average Number of Weekly Posts
	The average number of posts brands share per grouping and industry.
	Why It Matters: It helps determine the right cadence for posting.
asure up.	Average Video Views
	The average number of views each video receives.
	<b>Why It Matters</b> : Users watching video more often have a higher likelihood of remembering brand messages or products.
important	Average Shares
	The average number of times each piece of content is shared.
	Why It Matters: Shares indicate that content resonates with users and is deemed 'shareable'.
ofindustry	Average Comments
	The average number of comments that each post receives.
	Why It Matters: Comments signify community and suggest that users connect with the video.
	Retention Rate (TikTok)
	The percentage of a video that people watched.
	Retention Rate = average time watched / video duration.
clude brands that	*This number can be over 100% if viewers rewatch a video.
asure up.	Why It Matters: Understanding how long audiences stay engaged is key to figuring out what types of content work on
	TikTok.

# **Cross-Channel Trends**

### **TikTok Is Still the Best Platform for Engagement**

When using a common metric to compare engagement across all channels (cross-channel engagement rate), TikTok leads with 4.5%, followed by Instagram with 4.0% and YouTube with 2.8%. This indicates that TikTok has superior user interaction. This trend continues in short-form content, with TikTok leading at 4.5%, followed by Instagram Reels at 3.6% and YouTube Shorts at 3.4%. These figures underscore TikTok's effectiveness in captivating and engaging its audience, while brands see lower engagement in Reels than Instagram overall.

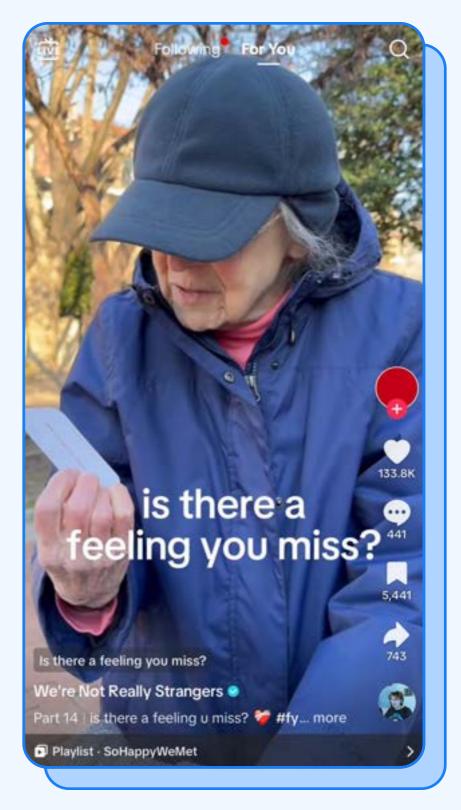

### TikTok Has Caught up to Instagram Reels in Reach

Historically, Instagram Reels has outperformed TikTok due to its seniority and built-in user base. However, this recent analysis shows the gap is narrowing. Instagram now only leads by 4%. This highlights TikTok's growing influence and the strength of its algorithm, especially considering how brands often have fewer followers on TikTok than Instagram.

### "Shares" Become the Metric To Watch

All three platforms have seen a significant increase in shares compared to six months ago. This trend underscores the growing importance of creating shareable content as more conversations are moving into direct messages. The rise in shares highlights that regardless of user behavior changing, shareworthy content from brands still sees meaningful engagement.

@werenotreallystrangers

### **Dash Social Insight**

Create highly engaging, shareable content across TikTok, Instagram and YouTube to boost interaction, reach and conversations. Take advantage of each platform's growing engagement and capitalize on trendy content to grow your community.

### TikTok Continues to Experience Rapid Growth and Widespread Popularity

Brands on TikTok still see momentum, with 6% monthly follower growth. Brands are more invested in the channel than ever, increasing their posting cadence to 6 times a week, up from 5 times a week over the past year. This consistent growth and increased posting frequency highlight how TikTok is a key focus for both brands and users.

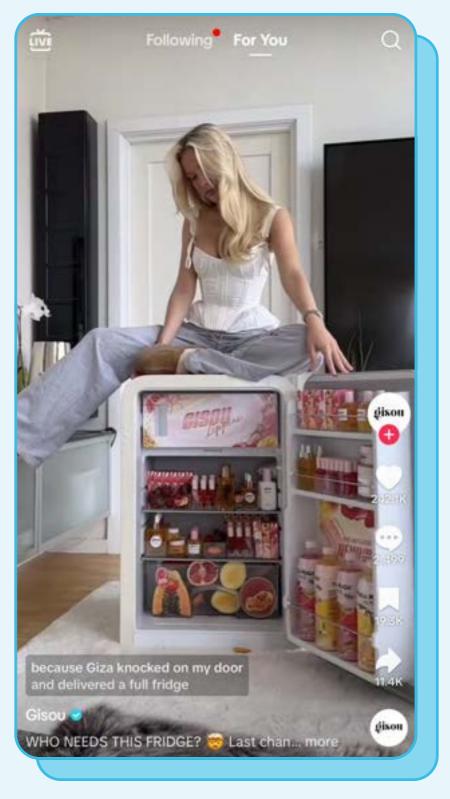

### **Brands Are Producing Better Content and Seeing Better Results**

Average Entertainment Scores have grown from 3.6 to 3.8, shares from 111 to 146 and overall reach by 5%. Brands have gotten better at creating the entertaining, highly shareable content that users are most likely to engage with, and the algorithm is rewarding them. This also highlights how competition for creating great content is heating up, and brands need to get good at becoming entertainers to grow their social channels.

### **Brands With Higher Engagement Rates Attract More Followers**

As an algorithm-based platform, the objective for TikTok is to make engaging content, not grow follower count. However, follower growth is one indicator that brands are succeeding. This trend can be visualized as the circle of engagement: create good content, drive engagement, gain followers, and in turn, these followers contribute to even more engagement. As a result, large brands (4.3%) outperform established (3.6%) and growing (3.3%) brands in engagement rate.

@gisou

### **Dash Social Insight**

Brands that post more often have increased Entertainment Scores and shares.

Focus on creativity and consistency to maximize reach and audience engagement.

# O Instagram Trends

### **Engagement Sees an Uptick While Reach Remains Flat**

The cross-channel engagement rate has seen an increase in the second half of 2024 for Instagram, while overall brand reach remains flat.

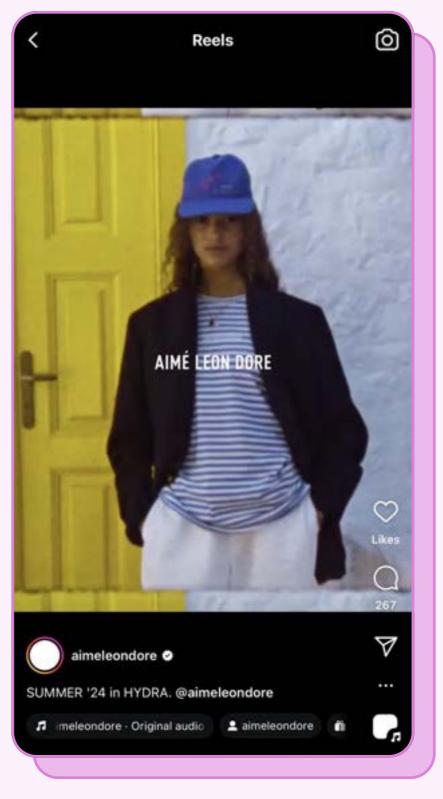

### Images and Carousels Drive Greater Reach Than Reels

On average, single images (188.6K average reach) and carousel content (149.9K average reach) achieve greater reach than Reels (109.4K average reach).

## Instagram Stories Continue to Drive Strong User Engagement

Instagram Stories continue to be a powerful tool for engagement, as demonstrated by impressive reach (14.1K) and completion rates (92%) that are high regardless of follower count. These metrics highlight the effectiveness of Stories in connecting with audiences and driving forward momentum, making them an essential part of any social media strategy.

@aimeleondore

### **Dash Social Insight**

Single images and carousels can drive higher reach, yet Reels and Stories remain crucial tools for brand engagement and visibility.

### Shorts See Substantial Increase in Views, While On-Demand Declines

Compared to six months ago, YouTube Shorts video views have increased by 153%, suggesting that the short-form offering continues to gain traction. Meanwhile, On-Demand video views dropped by 15%.

### Shorts Drive Higher Engagement Compared to On-Demand

YouTube Shorts receive three times more likes than On-Demand, differentiating the format as more engagement-driven. Users' tendency to comment on and participate in whatever they're watching is beneficial to brands looking to build community.

### YouTube Has Higher Viewer Retention Compared to TikTok

YouTube's role as a search engine significantly contributes to its higher viewer retention rates, with users completing an average of 67% of videos, compared to TikTok's 25%-30%. Unlike TikTok's infinite scroll, YouTube leverages Google's advanced discoverability tools to help users find content tailored to their interests. For brands, optimizing YouTube content like blog posts ensures it reaches and engages the right audience effectively.

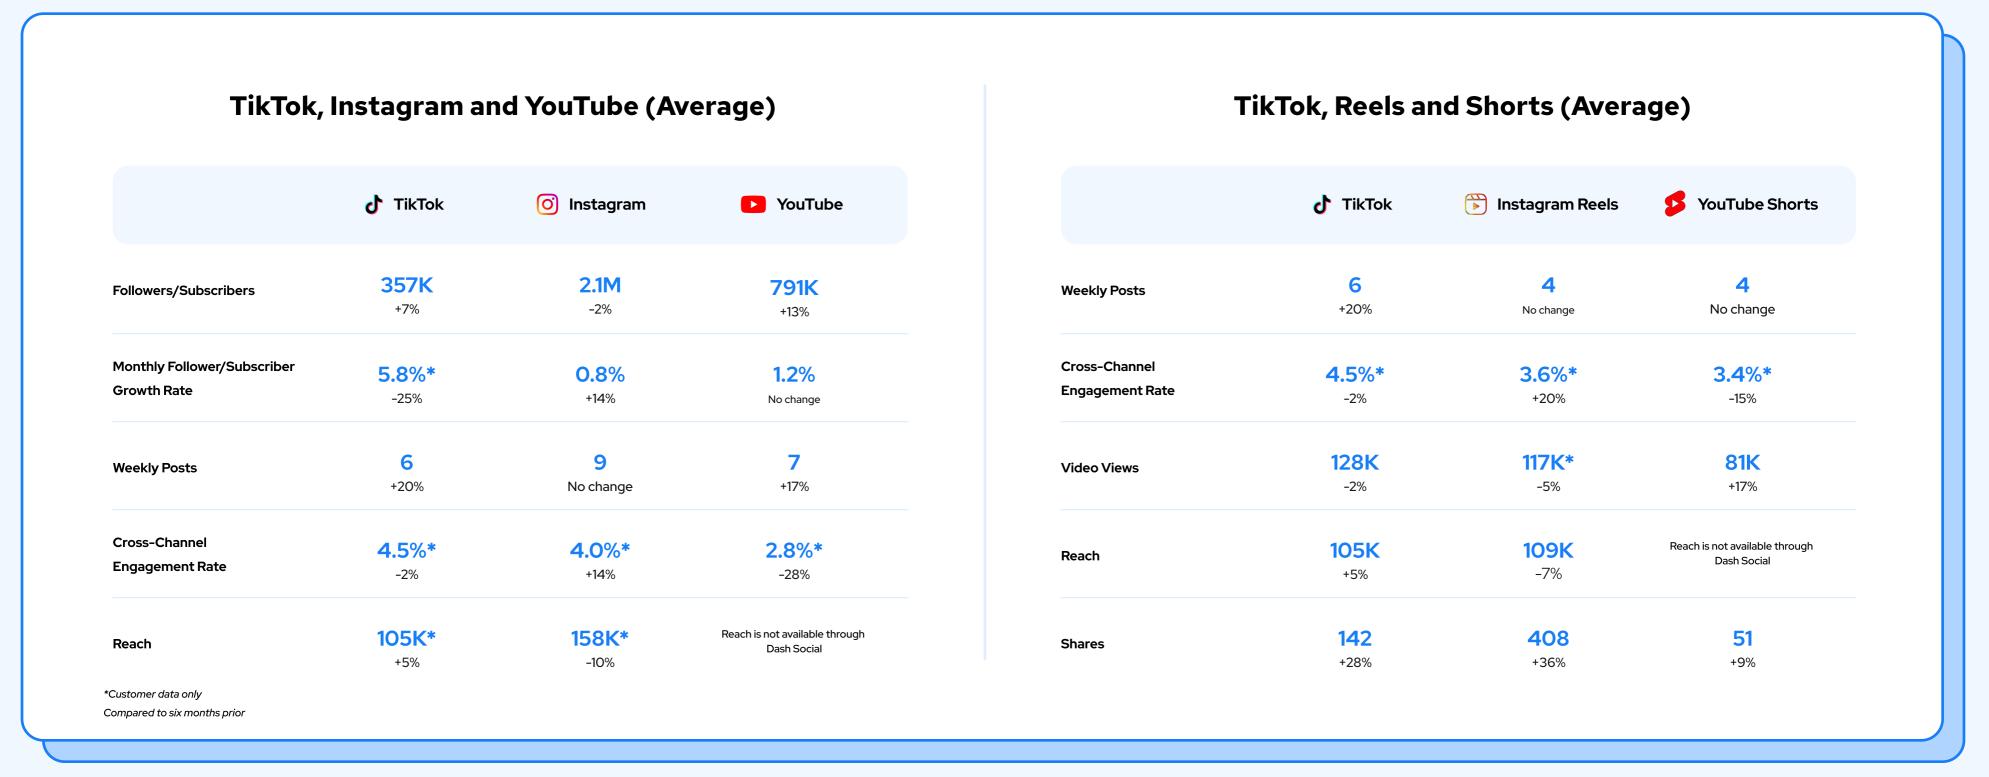

@realmadrid

### **Dash Social Insight**

YouTube Shorts has experienced significant growth in video views yet remains a largely untapped opportunity for brands.

# **Across All Industries**

Cross-Channel Engag three platforms. Calculation: TikTok and

Cross-Channel Engagement Rate is a metric designed specifically for this report. It allows for an equal comparison across TikTok, Instagram, and YouTube by applying the same calculation across all

Calculation: TikTok and Instagram = (Likes + Comments + Shares) / Reach | YouTube = (Likes + Comments + Shares) / Video Views

### **Beauty Industry Insights**

# Leading Beauty Brands Dominate Social Media by Mastering Platform-Specific Strategies

## Beauty Brands Are Thriving on TikTok by Focusing on Entertainment and Building Community

While TikTok is a saturated space for beauty brands, those prioritizing community and entertainment stand out. With Entertainment Scores rising from 3.7 to 3.9, beauty brands excel at creating engaging content for their community. They build loyalty through giveaways and exclusive merchandise, fostering a strong sense of community as growth stabilizes.

### **O** Top-Tier Content Comes From Brands With Bigger Followings

Historically, larger brands struggled with audience engagement on Instagram, but now those with over a million followers, like Sol de Janeiro, Gisou and Starface, are setting Instagram standards, achieving great engagement rates and Entertainment Scores.

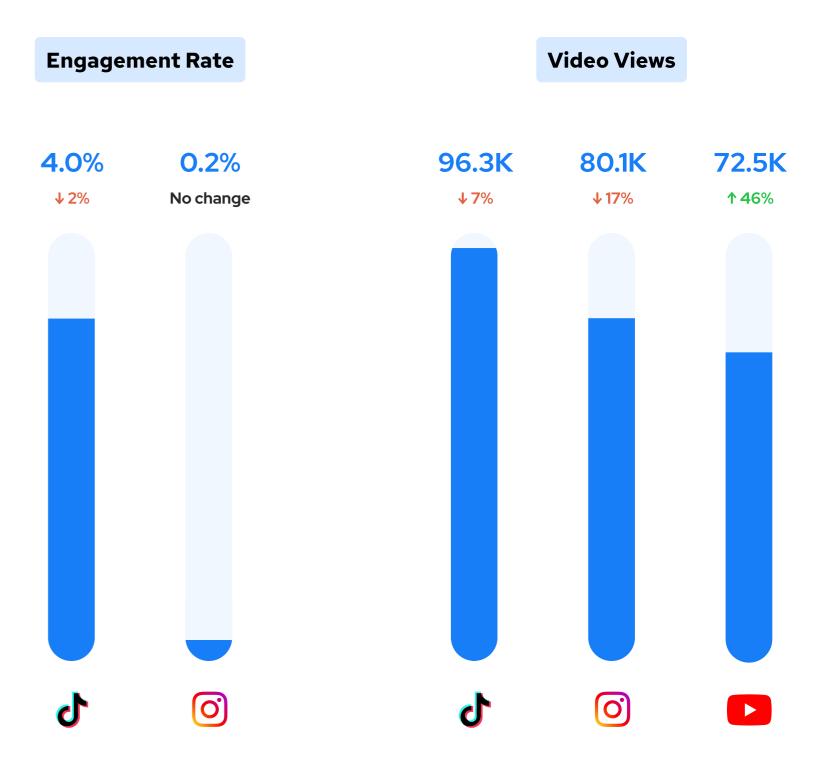

### YouTube Views Have Doubled, Which Can Be Attributed to Shorts

Video views for beauty brands have doubled, from 49.7K to 96.3K, largely due to the popularity of Shorts. Brands like LANEIGE US, Truly Beauty and Glow Recipe have successfully leveraged this feature to engage audiences with quick tutorials and product showcases, highlighting its impact on viewer engagement.

# Strategies

## **Showcase Visually Stunning Content**

Mix educational content with fun elements, such as skincare tutorials combined with product launch celebrations, to demystify complex topics while keeping engagement high.

## Leverage Diverse Content Strategies

Employ a variety of content strategies, from in-depth tutorials to quick, engaging demos and innovative collaborations, to cater to a broad audience and maximize engagement.

**DASH** SOCIAL

Utilize visually appealing posts that highlight product benefits and tutorials, making your brand stand out in a competitive market.

### **Blend Education with Entertainment**

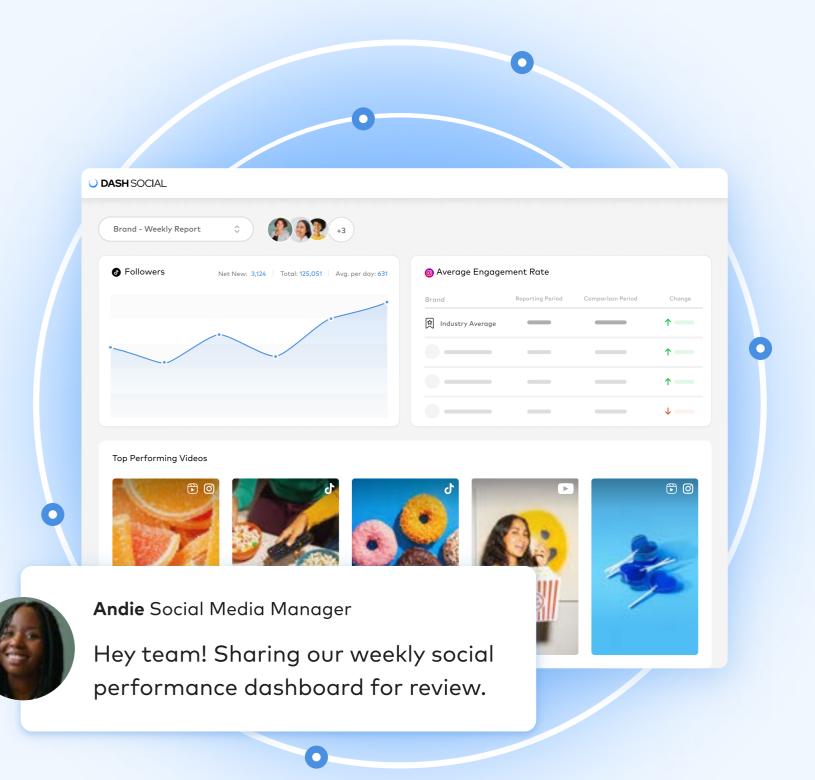

# **DASH** SOCIAL

# **Outsmart Social**

Dash Social is a social media management platform that equips brands with intelligence and speed to stay ahead of the curve. Through its sophisticated cross-channel insights and workflow tools, Dash Social enables brands to create content that entertains, engages, and drives consistent business results.
